NONCOMPLIANCE SUMMARY

The individual under supervision has not complied with the following condition(s) of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

- | | |
|----|---|
| 1. | Javon Alston has violated the special supervision condition which states ' You must refrain from the illegal possession and use of drugs, including prescription medication not prescribed in your name, and must submit to urinalysis or other forms of testing to ensure compliance. It is further ordered that you must submit to evaluation and treatment, on an outpatient or inpatient basis, as approved by the U.S. Probation Office. You must abide by the rules of any program and must remain in treatment until satisfactorily discharged by the Court. You must alert all medical professionals of any prior substance abuse history, including any prior history of prescription drug abuse. The U.S. Probation Office will supervise your compliance with this condition. |

On June 27, 2022, Mr. Alston tested positive for alcohol and PCP.

U.S. Probation Officer Action:

On June 27, 2022, contact was made with Mr. Alston at his residence and a urine specimen was secured in an instant drug testing cup which tested positive for alcohol and PCP. The IUS admitted to drinking alcohol over the weekend; however, denied smoking PCP. He stated his friend gave him a tobacco cigarette and perhaps there was PCP in the cigarette box, but he reported he did not intentionally smoke PCP.

With regard to the remaining conditions of supervision, Mr. Alston remains unemployed, but was referred for life skills, job placement, vocational training opportunities and other social services at New Jersey Re-Entry Center in Jersey City, New Jersey on June 6, 2022.

On June 24, 2022, Mr. Alston attended the intake assessment for mental health and substance abuse treatment at Trinitas Hospital. Following the assessment, the treatment provider recommended that he attend one mental health individual session per month. Since that recommendation, he tested positive for PCP and alcohol. As such, substance abuse groups and increased urinalysis testing will be added to the treatment plan.

At this time, we are respectfully recommending no further action be taken against Mr. Alston as we monitor his compliance with treatment services, abstaining from alcohol and illegal substances, along with the remaining conditions of supervision.

Respectfully submitted,

SUSAN M. SMALLEY, Chief
U.S. Probation Officer
